

ANNUAL REPORT

You created a *healthier* future for countless lives.
See the exceptional care your giving made possible.

A LETTER FROM OUR **PRESIDENT & CEO**

Dear friends,

I hope you enjoy our 2021-2022 Annual Report. The accomplishments we celebrate are yours. The gratitude from health care providers and patients we receive belongs to you.

Like so many of you, the Saint John Regional Hospital Foundation continued to face challenges we had never experienced before the last few years. The very core of our mission – fundraising and bringing people together, inspiring donor generosity moving health care forward– was turned upside down.

As proud as we are of the Foundation's ability to navigate the complexities of a global pandemic, our accomplishments over the years are because of you. We need to say thank you to all of you who supported the Foundation.

Thank you for your generous donations, perseverance in the face of unprecedented challenge and uncertainty, and for thinking of the Saint John Regional Hospital Foundation. Thank you for your belief in the Foundation as a trusted steward of your gifts and in our ability to ensure they would be used to their fullest potential.

As our community of donors grew, so did your generosity's impact. We raised \$8.7 million to support critical areas of patient care, including research, equipment, comfort programs and facilities across our hospital and province, our highest amount ever.

The Foundation exists because we believe that together we can ignite and inspire our community, creating a healthier future for New Brunswickers.

After the challenges the world has faced in the last two years, we all know how vital our mission is and how important it is to support health care workers. Thank you for helping us create a healthier future together.

With gratitude,

A handwritten signature in dark ink, appearing to read 'Jamie Gallagher', written in a cursive style.

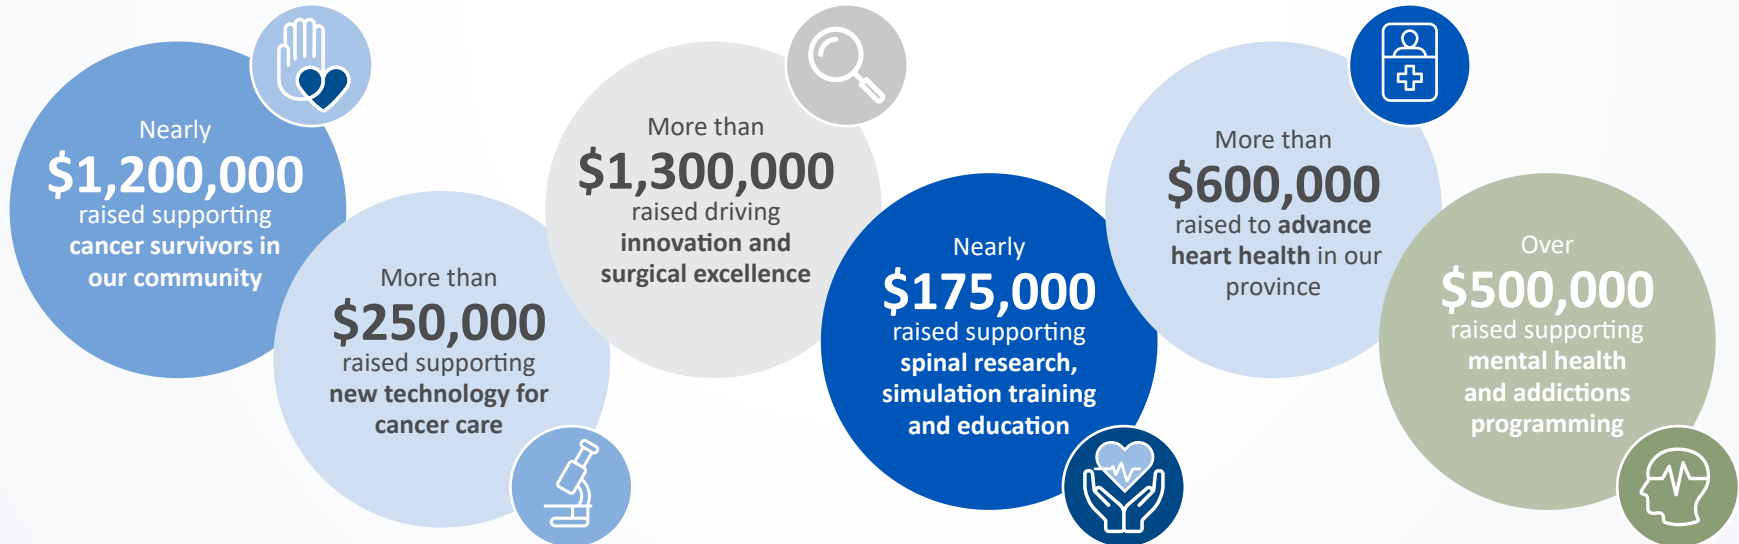

Jamie Gallagher
President and CEO

Thank You

for making a difference

Thanks to you, the Saint John Regional Hospital Foundation raised \$8.7 million in 2021-2022 to create a healthier tomorrow.

TRANSFORMATIONAL GIVING

\$526,841

Your generosity supported the creation of Atlantic Canada's first Imaging Enhancement Centre.

New Imaging Enhancement Centre

You enabled us to extend more critically important care into the community by transforming medical imaging. Horizon's Saint John Regional Hospital will house a 3-D printer that will allow clinicians to create a virtual copy of their patient's anatomy to plan and practice surgery. The Imaging Enhancement Centre, the first in Atlantic Canada, will have the potential to be a regional centre of excellence and may even emerge as a national or international leader. The technology will be available to surgeons and teams across the province. The Imaging Enhancement Centre will also be the first in Canada to adopt Subtle Medical's AI Solutions, SubtlePET™.

“The cutting-edge of medical innovation increasingly shifts towards digitization. The 3-D Imaging Centre, the first in Atlantic Canada, will have the potential to be a regional centre of excellence and may even emerge as a national or international leader.

– Zack Kilburn, Regional Director of Diagnostic Imaging, Horizon Health Network

Photo: Dr. Ian Maxwell, Plastic Surgeon; Zach Kilburn, Regional Director of Diagnostic Imaging, Horizon Health Network; Dr. Darren B. Ferguson, Division Head of Vascular and Interventional Radiology.

ADVANCING CANCER CARE

\$394,002

Because of you, we acquired the latest technology, supporting cancer patients in our community.

Enhanced Treatment and Care for Lung Cancer Patients

Donor generosity helped fund new state-of-the-art technologies, including a 3-D Bronchoscopic Navigation System to find smaller, more distal tumours and Fluorescence Imaging technology to show where the cancer is to spare healthy lung tissues. Clinicians can now reduce the time from identifying lung cancer to definitive treatment and provide immediate enhancement to the care provided.

Automated DNA/RNA Extractor

With your support, the Foundation purchased a DNA-RNA extractor to automate the preparation of both DNA and RNA from solid tumour blood and bone marrow samples, allowing geneticists to develop more targeted treatments for cancer patients.

Photo: Bob McVicar and Christine Gilliland

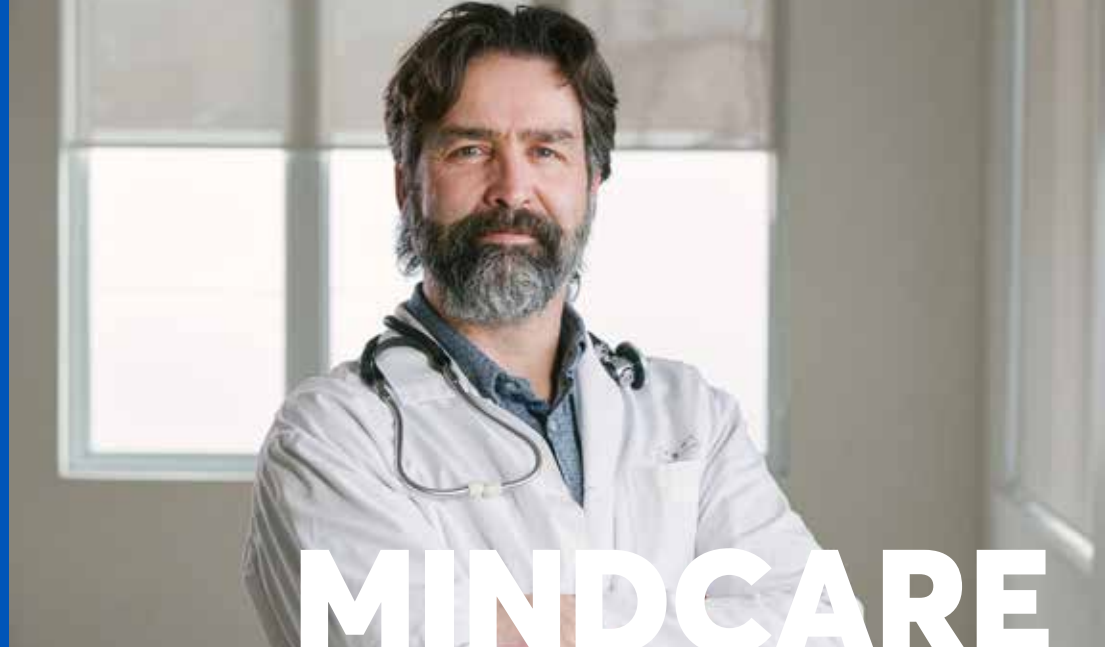

“Bob’s diagnosis was a total surprise. The pain in his back. The weakness in his legs. It was cancer. And the scans showed it was bad. All through his body. But our hospital moved mountains to stop the disease in its tracks. They did all they could to reverse his terminal diagnosis.

- Christine Gilliland

IMPROVING MENTAL HEALTH & ADDICTIONS

\$529,301

Your support improved the mental health
and well-being of New Brunswickers.

Enhanced Drug Monitoring

Your gifts allowed us to fund the purchase of a Tandem Mass Spectrometer, the gold standard for therapeutic drug monitoring and testing. This vital technology allows the lab at Horizon's Saint John Regional Hospital to provide a definitive and comprehensive analysis of illicit and therapeutic drugs for various clinical purposes with a 24-hour turnaround time, significantly improving the current care model. The new technology will enable clinicians to incorporate results more quickly into effective clinical decision-making, including the potential to prevent overdoses and improve patient safety.

SCHOLARSHIPS

\$28,000

granted to assist in training mental health professionals

“**People are the experts in their own lives, I aim to walk with them on the path to mental wellness, not ahead of them.**” Kathryn Flood, 2021 Franklin MindCare Scholarship Recipient

Photo: Dr. Duncan Webster, Infectious Diseases Physician

MINDCARE

“
Mass spectrometry isn't just a convenience. It will save lives. Drug testing at its core is about safety. It will allow clinicians to reduce the risk of drug-to-drug interactions. Effective drug testing can also have a direct impact on the safety of the community. With the new technology, if there's a tainted drug supply in the city, we will know immediately, and we can protect the most vulnerable.

- Dr. Duncan Webster

ADVANCING CARDIAC CARE

\$713,200

You equipped the Heart Centre team with the latest technology to improve patient care.

Epic Ultrasound System

Technology used by Cardiac OR and Interventional Cardiology to guide the procedure and to determine the success of interventions in real time allowing for adjustments when needed.

Cardiohelp Portable Bypass System

Portable Extracorporeal Membrane Oxygenation (ECMO) system, compact and light-weight technology which can be rapidly deployed making it ideal for transporting patients while on circulatory and /or pulmonary support.

Quest Cardioplegia Pumps

Four new generation myocardial protection pumps required for all open-heart surgeries.

EDUCATION

\$8,200

Funded an Intra Aortic Balloon Pump Simulator to facilitate knowledge transfer of this complex device, that helps a patient's heart pump more blood, with new employees and with yearly recertifications.

INVESTING IN PEOPLE

\$555,917

You supported training, research, and education, allowing healthcare providers to improve the quality of care.

EDUCATION & TRAINING

Supporting Students at the Dalhousie Medicine New Brunswick Campus

Six Point of Care Ultrasound Units, enabling the next generation of physicians at the Dalhousie Medicine New Brunswick Campus to gain practice scanning independently.

Enhancing Care with Simulation Training

- Neonatal Simulation Manikin to facilitate the training of health care professionals to initiate proper care and resuscitation of preterm infants.
- Child Birth Simulator, allowing medical teams to become efficient in responding to childbirth emergencies protecting mother and baby.
- Vimedix High Fidelity Ultrasound Simulator to support the Emergency Department Point of Care Ultrasound System (PoCUS) Education Program.
- Cardiac Ultrasound Simulator, Transesophageal echocardiography (TEE) produces clear pictures of the heart and its structures, allowing training physicians to look more closely at a patient's heart to see if it may be producing blood clots.

Photo: Susan Benjamin, RN; Dr. Jay Mekwan, Medical Director of Simulation; Ian Watson, Administrative Director, Trauma NB

MEDICAL CONFERENCES & EDUCATION

THE LITTLE THINGS

\$471,285

Your generosity provided patients with the little things that improve their experience through a number of programs and funds.

PATIENT SUPPORT PROGRAMS

Transportation for Veterans

A new van for the residents of the Ridgewood Veterans Wing, helping vets attend medical appointments and interact with the community.

New Equipment for the Rehab Unit & Therapeutic Services

Special equipment used by the Physical Medicine Rehabilitation Program and Therapeutic Services – most recently, a cross-trainer making a huge difference in patient recovery.

Supporting Cancer Patients

- Scalp Cooling Systems to help reduce or prevent hair loss because of chemotherapy treatment for those patients who are eligible to use the technology.
- Breast Health Program Trust Fund providing cancer patients with support garments (lymphedema sleeves), breast prosthesis, transportation cost for treatments, massage therapy and private counseling.

SOCIAL WORK PROGRAMS

- Irving Oil Fuel the Care Program
- Breast Prosthesis
- Prescriptions & Travel Assistance
- Financial Assistance

INSPIRING GENEROSITY

\$136,809

Improving patient care one community event at a time.

COMMUNITY FUNDRAISERS

Thanks to our creative community fundraisers who raised critical support for our hospital during a global pandemic.

Countless people in our community, like the Georgoudis family, 30 year partners to the Foundation, have raised funds to support causes near to their hearts.

To learn more about organizing a community event, visit thegive.ca/get-involved

Photo: George D. Georgoudis, Vito's Restaurants

We think that supporting the hospital is where we can have the biggest impact on the community across the board. At some point, we're all touched by the health care system. It is something we all need, that affects us or our families – a child, parent, uncle or grandparent.

- George "Big George" Georgoudis

Lasting TRIBUTES

HONOURING SOMEONE SPECIAL

\$77,206

Countless gifts were made to the Saint John Regional Hospital Foundation honouring someone special or paying tribute to the memory of a loved one. These donations are a meaningful way to honour and recognize important individuals in your life while supporting our community's health care needs.

SUPPORTING THE FUTURE

\$1,325,470

Thank you for helping create a lasting legacy at Saint John Regional Hospital Foundation by donating to an Endowment Fund.

With an endowment fund, gifts to the fund are invested and only the interest is spent, leading to a permanent source of funding to support the hospital.

An Endowment Fund is something that an entire family can support and grow over time, ensuring that the Foundation can continue to support excellence in health care *for years to come*.
